# Hygienic Conveyors

## Come test with us!

Unitherm has been producing hygienic equipment since 1986.

We specialize in producing hygienic equipment that delivers the quality and dependability that our clients and their customers' demand.

### Test Kitchen

If the quality of the hygienic equipment is truly important to you, then come visit us. We will show you the latest methods for maintaining a highly hygienic kitchen with the state of the art technology. Unitherm operates a 25,000 sq.ft. kitchen dedicated to cooking, chilling, and freezing.

### Manufacturing Facility

Our manufacturing facility has the latest fabrication machinery in a 75,000sq.ft. plant. Our test facility is fully operational with production machines.

### Service Department

Our service technicians can be on site within 24 hours anywhere in the world. On-line diagnostics utilizing ethernet and a live camera line to the machine allows us immediate access to troubleshoot equipment.
